

Fortbildung Veterinärimmunologie (Continuing Education Veterinary Immunology)

Institut für Immunologie, Veterinärmedizinische Fakultät, Universität Leipzig; Donnerstags 9:00-10:30h;

Englisch; online (Zoom); Zugangsdaten nach Anmeldung an: sekimmun@rz.uni-leipzig.de

Datum	Veranstaltungsthema	Referent*in
05.01.23	Induction of capsule-reactive IgM antibodies against <i>Streptococcus suis</i> by porcine non-conventional B cells	Tierärztin Anne Seidel
12.01.23	Canine TCR $\alpha\beta$ + (double-negative) T cells	Tierärztin Laura Winkler
19.01.23	Journal Club: Monkeypox: disease epidemiology, host immunity and clinical interventions; Lum et al., NATURE REVIEWS IMMUNOLOGY volume 22 October 2022 597	Prof. Dr. Mathias Büttner
26.01.23	Canine peripheral blood TCR $\alpha\beta$ T cell atlas: Identification of diverse subsets including CD8A ⁺ MAIT-like cells by combined single-cell transcriptome and V(D)J repertoire analysis	Dr. Maria Eschke
02.02.23	Journal Club: Exhausted T cells	Dr. Maria Eschke
09.02.23	Immune complexes in severe Equine Asthma	Tierärztin Aline Keilhau
16.02.23	<i>What is new in Veterinary Immunology?</i>	<i>Prof. Dr. Gottfried Alber/Gast</i>
23.02.23	Identification of disease-relevant antigens in severe Equine Asthma	Maria Jentsch MSc
02.03.23	siRNA in murine cells	Dr. Martina Protschka
09.03.23	Antigen-specific T cells in Equine Asthma	Tierarzt Valentin Wjst
16.03.23	Equine respiratory immunology	Dr. Christiane Schnabel
23.03.23	Ide <i>Ssuis</i> : Effect on B cells	Dr. PD Uwe Müller
30.03.23	<i>What is new in Veterinary Immunology?</i>	<i>Prof. Dr. Gottfried Alber/Gast</i>
