

Journal Club Pferdemedizin 2025

Datum	Vortragende/r	Paper / Thema
04.02	P. Tönnies	Three-dimensional printed surgical guides for keratoma removal in horses using computed tomography or magnetic resonance imaging-based segmentation
11.02	A. Gierga	Successful Cardiopulmonary Resuscitation in a Sevoflurane Anaesthetized Horse That Suffered Cardiac Arrest at Recovery
18.02	L. Herschel	Chronic Progressive Lymphedema in Belgian Draft Horses: Understanding and Managing a Challenging Disease
25.02	R. Bosch	Sodium–glucose cotransporter 2 inhibitors in horses—Magic bullet or latest fad?
04.03	A. Schaller	The PTP1B inhibitor MSI-1436 ameliorates liver insulin sensitivity by modulating autophagy, ER stress and systemic inflammation in Equine metabolic syndrome affected horses
11.03	L. Kummer	Multicenter study investigating long-term survival after synovial lavage of contaminated and septic synovial structures in horses presented to 10 UK referral hospitals
18.03	S. Roth	Treatment of tendinopathies
25.03	H. Kölling	Methylated tirilazad may mitigate oligofructose-induced laminitis in horses
01.04	J. Büttner	Neck pain but not neurologic disease occurs more frequently in horses with transposition of the ventral lamina from C6 to C7
08.04	A. Pelli	Computed tomography of the equine caudal spine and pelvis. Pathological findings in 56 clinical cases (2018–2023)+ Computed tomography of the equine caudal spine and pelvis: Technique, image quality and anatomical variation in 56 clinical cases (2018–2023)
15.04	D. Scharner	Tenotomy of the semitendinosus muscle under standing sedation versus general anesthesia: Outcomes in 20 horses with fibrotic myopathy
22.04	C. Arnold	ECEIM consensus statement on equine kidney disease
29.04	L. Ganz Haseloff	Ultrasound-guided fetal thorax compression to reduce

		post-fixation twins in the mare
06.05	V. Katrinaki	Vertical pelvic movement asymmetry and lameness location in ipsilateral combined forelimb and hindlimb lameness cases
13.05	S. Kruger	Skin grafting with the modified Meek technique in the standing horse using full thickness skin: Evaluation of acceptance, wound contraction and wound closure in chronic wounds
20.05	T. Triebe	Acute leptospirosis in horses: A retrospective study of 11 cases (2015-2023)
27.05	L. Schütrumpf	Equine grass sickness is associated with major abnormalities in the ultrastructure of skeletal neuromuscular junctions
03.06	S. Della Tommasa	Outcome of tenoscopically guided palmar/plantar annular ligament desmotomy for the treatment of palmar/plantar annular ligament constriction without concurrent intrathecal soft-tissue injury in a UK horse population
10.06	M. Ostmeier	Comparison of inhaled salbutamol and salmeterol for the treatment of arterial hypoxaemia in anaesthetized horses: a randomized clinical trial
17.06	A. Troillet	Anatomical Description of the Presence and Variability of the Digital Manica Flexoria in the Equine Digital Flexor Tendon Sheath
24.06	M. Ziegler	Measurement of Trace Elements (Zinc, Copper, Magnesium, and Iron) in the Saliva of Horses: Validation Data and Changes in Equine Gastric Ulcer Syndrome (EGUS)
01.07	S. Beetz	Effects of pulsed inhaled nitric oxide delivery on the distribution of pulmonary perfusion in spontaneously breathing and mechanically ventilated anesthetized ponies
08.07	L. Sonnenburg	Effect of bone marrow-derived mesenchymal stem cells and stem cell supernatant on equine corneal wound healing in vitro
15.07	L. Burmeister	Comparison of cervical epidural morphine with intravenous morphine administration on antinociception in adult horses using thermal threshold testing
22.07	K. Lohmann	Postanesthetic rhabdomyolysis in 7 warmblood horses
29.07	H. Engelmann	Arthroscopic Treatment of a Subchondral Bone Cyst via Stem Cells Application: A Case Study in Equine Model and Outcomes

05.08	L. Schröter	Long-term follow-up of equine incisor endodontic treatments using an orthograde technique
12.08	J. Merten	Chronische Magendilatation beim Pferd – Diagnostik und kombinierter Behandlungsansatz
19.08	M. Furtmann	Heart rate variability in horses with and without severe equine asthma
02.09	S. Naumann	The influence of hypoxaemia, hypotension and hypercapnia (among other factors) on quality of recovery from general anaesthesia in horses
09.09	A. Bankert	Current Antimicrobial Use in Horses Undergoing Exploratory Celiotomy: A Survey of Board-Certified Equine Specialists
16.09	V. Melle	Effect of phenylbutazone on insulin secretion in horses with insulin dysregulation
23.09	K. Gerlach	Comparison of cone-beam and fan-beam computed tomography and low-field magnetic resonance imaging for detection of proximal phalanx dorsoproximal osteochondral defects
30.09	A. Murrone	The Detection of Thoracolumbar Spine Injuries in Horses with Chronic Laminitis Using a Novel Clinical-Assessment Protocol and Ultrasonographic Examination
